

SUBJECT:

As an update to the San Francisco ISC impact I would like you to know there has been an adjustment to the staffing at the San Francisco P&DC which will result in more bid assignments to be posted in the next bid sheet. There will be sufficient bid assignments added to reduce the impact to avoid excessing outside the bid cluster. The jobs that were withheld outside of the bid cluster for placement prior to this adjustment will be released from withholding and posted in eReassign in February. We will allow the Priority Consideration to continue until February 26th as previously planned to allow you the opportunity to apply for the jobs in eReassign. The application process in eReassign will accept your Priority status which moves you to the top of the list of applicants and places you on the list in seniority order with no review of your record. However, not everyone that applies will be accepted due to the contract stating Priority transfers fall within the ratio for the office. The District with the vacancy will be notifying those that are successful and the placement date. If you are interested in one of the withheld jobs you will need to apply in eReassign.

The next step in the process will be the preferencing of the 7 residual vacancies withheld in the San Francisco bid cluster and unassigned schedules at the San Francisco P&DC. All information should be finalized within the next week to start the next step in the process.

Ramon Martinez
San Francisco ISC Plant Manager
